

Simply the Best

1. Collaborative, browser-based virtual workspace independent of the video conference platform.
2. Able to manage parallel break-out groups.
3. Provide training programme for all potential participants in the tools and processes.
4. Technical Facilitators have minimum 20 years practical experience in Drilling & Completions.
5. Minimum of two (2) facilitators assigned to each session, including two (2) in any break-out session.
6. Ten (10) months of experience facilitating online.
7. 496 workshops in 60 countries, for 261 wells teams.
8. Secure access to the meeting: additional personnel to grant/deny access to the video-conference platform.
9. Output captured in a format that client can use to rigorously follow up and close out actions – web based format is preferred.
10. Optional full workshop report covering a narrative of the entire proceedings: e.g. details of presentations, discussions including Q&A, group work, any team-building/team-activities.
11. Option to provide wellsite performance coaches (performance and/or HSE).
12. HPHT, MPD and other skillsets.
13. Ability to conduct virtual team-building activities.
